

What Our Friends & Neighbors Are Saying

You people have helped me *so* much!

I was stressed out and felt like I was at the end of the earth, I didn't know where to go or what to do. But when I talked to sister, she just lifted all my worries off of me. I felt so much better!

When you were at 18th Street I used to take advantage and wasn't grateful. But it's so different here, I feel that you genuinely care about me and I'm thankful for everything you help us with, diapers, baby stuff, food, seeing the nurses...I even pray sometimes when I'm here and I don't take advantage anymore...I feel like I'm part of a family.

The Rose garden has changed my whole life! I never prayed before, now I pray and thank God for my blessings.

Every time I leave here I feel like God is with me. They are so wonderful, and I don't know what I'd do without them sometimes.

I thank God up above that there are people like the sisters to help me. They make you feel like you're not all by yourself in this world.

You feel real comfortable here, the sisters are like my family. I love it!

"No matter how bad I feel or if I feel like the world has dumped everything on me, I can come here and see a smile on sisters face and it just lifts me up and I know my day is gonna be alright."

The sisters pray for us! They been praying for my son since he was 1 year old. He has autism and I really believe their prayers have done a lot for him. He went from not talking at all to talking and talking where you can't get him quiet sometimes.

Coming here brightens my day!

Seeing us down the aisle at the food store, "I love you sisters!!"

I feel so good here. When I walk in that door, I'm like a different person.

I walk 20 blocks one way to get here, but it's worth it. I come for the food, but that's not the only reason, I get prayer, I get hope...I can keep going no matter how tough it gets.

When you come in the Mission, it's like a family atmosphere. You can get a cup of coffee or a cup of juice and sit and get to know your neighbors.
